## Profile

Dedicated Software Engineer with over 4 years of experience in developing responsive, user-focused web applications using modern technologies such as HTML, CSS, JavaScript, TypeScript, and Angular. Expertise in front-end development, with a strong ability to design intuitive user interfaces and optimize performance. Possesses a solid understanding of full-stack principles, enabling the delivery of cohesive and scalable solutions. Proven ability to integrate custom and third-party APIs, and migrate multi-page applications to single-page architectures. Adept at debugging, testing, and collaborating in agile environments to deliver high-quality software solutions.

## Skills & Abilities

### Programming Languages

Angular, Typescript, JavaScript, HTML5, CSS, Bootstrap, Jasmine.

### Development Environment

VS code, Node, NPM

### Version Control & Management Tools

Bitbucket, GitHub, Git, Source Tree, JIRA, Confluence

### Others

REST APIs, JSON, Webpack, GA4

## Experience

### SOFTWARE ENGINEER | ONEROOF TECHNOLOGIES LLP | AUG2023 – PRESENT

- Worked as an Angular Developer to design, develop, test, and debug web applications and enterprise sites within the finance domain, ensuring robust functionality and seamless user experiences.
- Created and integrated custom and third-party libraries and APIs to extend application functionality and ensure seamless system interoperability.
- Migrated multiple multi-page applications (MPAs) into single page applications (SPAs) to improve performance, user experience, and maintainability.

### ENGINEER 1 | APEXON CORPORATION INDIA PVT. LTD | FEB2021 – AUG2023

- Developed and maintained multiple frontend modules using Angular, leveraging components, services, directives, and pipes based on project requirements.
- Performed UI refactoring and code optimization to enhance performance, maintainability, and user experience.
- Integrated RESTful APIs and implemented unit test cases to ensure seamless functionality and code reliability.

## **UI DEVELOPER | DOMAINZGURU PVT. LTD | NOV2020 – JAN2021**

- Developed and maintained multiple frontend modules using Angular, leveraging components, services, directives, and pipes based on project requirements.
- Designed and developed custom email templates aligned with branding and marketing requirements.
- Created high-quality landing pages optimized for user engagement and performance.

## **Education**

**Bachelor of Engineering in Information Technology** | Vidyalankar Institute of Technology

**Diploma in Computer Engineering** | Vidyalankar Polytechnic

## **Projects**

### **Portfolio**

Designed & Developed Portfolio which contains Home, Tech Stack Information & Contact Details pages using HTML5, CSS, JavaScript

### **E-commerce Application**

Designed & Developed e-commerce application with primary feature of selling homemade products.

- Client-Side Development: HTML5, CSS, JavaScript.
- Server-Side Development: Firebase.
- Version Control & Management Tools: Git, GitHub.

## **Achievements**

### **Pat on Back**

- Developed Log feature which helps Admin to preview & download user action details in portal NOV2022

### **Pat on Back**

- Developed Log feature which helps Admin to preview & download user action details in portal JUL2022

## Certification

### Angular (Intermediate), HackerRank

- It covers topics like Routings, NgModules, Observables for data transmission & event handling, Dependency Injections & APIs

### Angular (Basic), HackerRank

- It covers topics like MVC Frameworks, Components, (Angular, Dynamic, Styling), Typescript, Two Way Binding & Form Validation.

**Front-end Javascript Framework:** Angular, Coursera

**Certified Cloud Practitioner,** AWS

## Other Information

**Languages Known:** English, Hindi, Marathi.
